

# *Love Dreamt Alive*

*A vision of Love has been dreamt alive,  
Through a yearning to share  
The warmth of life's kind embrace*

*Have you heard the soft voice of Angels  
Disguising their whispers as the wind  
That flows across the land to caress our skin  
With such a natural touch of compassion*

*Have you followed an Eagle's path of flight  
What do you see as you look through its eye's  
Can you sense the feeling within its heart  
as it moves with grace across the sky*

*Can you see the deep beauty of life  
Flowing in an ocean of light and sound  
Its essence can illuminate your mind  
With glowing embers of spiritual calm*

*The infinite waves of potential  
Are touching the shores of this world  
Yet we must open our eyes to truly see*

*It is now time to remember  
What we have always known  
There is nothing to fear  
But there is everything to Love  
Our life is an ancient rhythm of nature  
Set in motion from the dawn of time*
