

# Journey to Eternity

Seeking ...

The uncharted truth within this life  
A sacred place that touches the heart  
With such a tender feeling of honesty  
Like a flowing river of infinite compassion

Searching ...

For the ancient light of harmony  
A vibrant sight that transcends illusion  
And restores all minds with clarity

A journey ...

To a mysterious and forgotten land  
Awakening us to an intrinsic alignment  
With the First Source of Creation

Sailing upon a vast ocean  
Filled with messages of light  
And carried by the soulful currents of love

An illumination ...

Of life's deeper purpose  
To ascend in oneness and unity  
And to progress forward in co-operation  
As we enter a new era of generative sharing

Liberation ...

From all densities of perception

Eternities of time,  
Held within a single blink of an eye  
As every heart yearns to open  
And to simply embrace all of life as a friend
