

Visions of Eternity

*From deep inside a yearning to grow,
Generated within, our energy will flow,
United as one and together with all,
Seeing through the darkness,
many barriers will fall...*

*Our souls will pulsate with a luminous light,
Portraying a vision, maintained through our might,
To forever remember the intuition to find,
And regaining an insight,
one so true and so kind...*

*A blessing of the heart will be the first sign,
That releases the spirit,
and allows it to shine,
With the shimmering brilliance of a radiant star,
It guides us inwards,
on a voyage not far...*

*In gratitude and awareness our love starts to glow,
With new thoughts and feelings,
deep inside we all know,
That our awakening to Oneness is giving us true sight,
And is painting us an image,
so strange yet so bright.*
