

# At Home in the Heart

The key of life has been given, as a gift from the heavens...  
This sacred opportunity to live, shall be gratefully honoured...

The false walls of imprisonment,  
will be removed by our truthfulness,  
And One by One we shall release ourselves,  
into a new dawn of existence...

A mass awakening has begun,  
as people dig deep for strength and courage,  
A blessing will enter their lives...  
and with a surge of heartfelt compassion,  
A chain reaction shall occur,  
Sending out a wave of consciousness,  
Imbued with the seeds of awareness,  
To be spread across the land...

A new era of transparency,  
will allow us to peer through the façade,  
As the veils are being lifted,  
revealing a deeper clarity of sight...

It is now time to rise into harmony,  
as our hearts are expanding,  
In a rhythmic union with soul,  
and into the grand portal of Love...

My heart is beating gently,  
as I surrender and let go...  
The floodgates are peeled open,  
I now open up and allow,  
A powerful stream of energy,  
to surge into my Being...  
Standing now naked and still...  
I already have all that I need...

An emergence of new life,  
is being born unto Earth,  
As we all begin to remember,  
the truth of who we really are...

There is an essence of beauty,  
being emitted into our world,  
And just like a blossoming flower,  
we are all unfolding from our core.
