

# Dawn of Awareness

The language of light  
Has been written upon our land  
A pure consciousness is embedded  
Within the intricate formations  
That have been laid upon our fields  
Creating patterns of intelligent beauty  
And striking the chord of awareness  
For us all to behold

The messages have been sent  
From the dawn of creation  
Encoded with sacred geometry  
Within a vibratory transmission  
Of ancient wisdom and love

Transferred through dimensions  
The signs have been delivered  
To guide our understanding  
And to beckon us forward  
On a path of awakening  
To the intrinsic nature of truth

This resonance of energy  
Glow with a mysterious presence  
That inspires us to open our minds  
And to step into the wonder of existence

The balance will be tipped,  
Towards the light of awareness...

Our souls are united,  
Over all distance and time...  
We are infinitely connected  
By one intuitive voice...  
Awakening to the innocence  
Of a life that thrives within harmony  
And is being fed from the infinite heart  
Of our ascending universe.
